TUSHAR DHUMAL

Power BI Developer & Data Analyst | Microsoft PL-300 Certified

Nashik, Maharashtra, India | +91 9370998557 | mr.dhumal.tushar@gmail.com | linkedin.com/in/tushar-dhumal

PROFESSIONAL SUMMARY

Microsoft PL-300 Certified Power BI Developer and Data Analyst with a B. Com in Finance, specializing in translating complex datasets into insightful, actionable dashboards. Proven track record of delivering 10+ end-to-end BI projects and reducing manual reporting time by 40% through automation. Expert in advanced DAX, Python, and building robust ETL pipelines using SQL Azure, Microsoft Fabric, and Power Query. Highly skilled in leveraging Power Automate and Power Apps to streamline enterprise workflows and empower data-driven business decisions.

TECHNICAL SKILLS

Data Visualization & BI: Power BI, Insightful Dashboards, Wireframing, Tableau, Advanced Excel (Formulas, Named Arrays, INDEX/MATCH)

Analytics & Engineering: DAX, M Language, Python, SQL Azure, Microsoft Fabric, Predictive Modeling

Process Automation: Power Automate, Power Apps, ETL Automation, GenAI-Assisted Code Generation

Business Analysis: Requirement Gathering, Business Requirement Documents (BRD), UI/UX Dashboard Design, Stakeholder Management

Custom Visuals & Web Dev: HTML5, CSS3, JavaScript (D3.js, Chart.js), Custom Visual Component Engineering

PROFESSIONAL EXPERIENCE

Datachamps Private Limited, *Nashik, India*

Power BI Developer & Data Analyst | (Full-time: Sep 2026 - Present | Intern: Jan 2026 - Sep 2026)

- Engineer interactive, insightful Power BI dashboards and robust data models for diverse cross-functional teams and clients.
- Automate complex ETL pipelines utilizing SQL Azure, Microsoft Fabric, and Power Query, ensuring 100% data accuracy and scalability.
- Reduce manual reporting time by 40% by implementing GenAI-augmented Python scripts, Power Automate workflows, and integrated Power Apps solutions.
- Translate business requirements into actionable Business Requirement Documents (BRDs) and comprehensive wireframes to drive data-driven decision-making.
- Developed and integrated custom Power BI visuals using HTML, CSS, and JavaScript, extending native reporting capabilities.

The Excel Bee, *Remote, India*

Freelance Data Analyst | Jan 2023 – Jan 2026

- Built and maintained interactive, cross-functional Power BI dashboards to track operational KPIs, enabling data-driven strategic decisions across multiple client domains.
- Automated end-to-end ETL pipelines using SQL queries and Power Query, significantly reducing manual data-processing turnaround time.
- Gathered and translated business requirements into scalable analytics frameworks and automated financial budget reports.
- Leveraged GenAI platforms to accelerate SQL and Python script development for predictive analysis and client-facing data presentations.

KEY PROJECTS

- **Client Financial & Sales Dashboards (Datachamps):** Engineered an automated suite of accounting dashboards, including Finance, AR, AP, and Sales, to centralize organizational financial reporting.
- **Sales & Corporate Reporting Dashboards:** Designed executive-ready reporting platforms, including an automated Sales Advance Dashboard and a BMW Sales Advance reporting framework.
- **E-Commerce Customer Segmentation:** Performed exploratory data analysis (EDA) and AI-assisted Python scripting to uncover customer segmentation patterns and buying trends.
- **The Excel Bee Platform:** Led technical content production, website design, and video tutorials on data analytics and dashboard automation best practices.

EDUCATION & CERTIFICATIONS

Bachelor of Commerce (Finance & Accounting) | 2020 – 2023

Savitribai Phule Pune University, Graduated with First Class Honors

Certifications: TATA, GenAI Powered Data Analytics & Visualization Insights | Deloitte Australia, Data Analytics Virtual Experience | JPMorgan Chase, Quantitative Research Job Simulation | British Airways, Data Science Job Simulation
